

David Sebastián Aguiar

Fullstack Developer

✉ sebaaguiar.dev@gmail.com | 📍 Entre Ríos, Argentina | 🔗 [LinkedIn](#) | 🌐 [Portfolio](#)

Professional Profile

Fullstack Developer with over 2 years of experience and a strong specialization in Backend, focused on creating robust and scalable applications with TypeScript, Node.js, and NestJS. I have experience leading technical teams, optimizing workflows, and improving communication to accelerate development cycles. I aim to provide value through high-quality code and my interest in software architecture.

Work Experience

Backend Developer & Tech Lead | Gravitad | Spain (Remote)

May 2024 – June 2025

- Promoted to Tech Lead, I led a team of 5 developers, optimizing API delivery and improving communication and workflow.
- Designed and implemented automatic data importers, **reducing development time by 20%** and minimizing manual errors.
- Implemented a testing strategy with Jest and Supertest to increase the quality and confidence in deployments.

Fullstack Developer | 14x Tech | Argentina (Remote)

July 2023 – January 2024

- Participated in the migration of a legacy system (VB, ASP.NET) to a modern stack with Parse-Server, Vue.js, and MongoDB.
- Implemented critical security features, including ACLs and a role-based permission system.

Backend Developer | Trabajo en Digital | Mexico (Remote)

March 2023 – June 2023

- Contributed as a key developer in the relaunch of a job board using Next.js and tRPC.
- Managed task distribution and acted as the main liaison between the Project Manager and the development team.

Technical Skills

- **Languages & Environments:** TypeScript, JavaScript, Node.js, HTML5, CSS3, Go (Basic).
